### Your Kolbe Strengths

Kolbe Action Modes are behaviors driven by your instinct

**Fact Finder:** is how you gather and share information.

Your way of doing it is to **Explain**.

Follow Thru: is how you organize.

Your way of doing it is to **Systematize**.

**QuickStart:** is how you deal with risks and uncertainty.

Your way of doing it is to **Stabilize**.

**Implementor:** is how you handle space and tangibles.

Your way of doing it is to **Restore**.

You can count on Kolbe results being constant over time.

#### IT'S WHAT DRIVES YOU, Jesús

Your Kolbe result celebrates your **Modes of Operation (MO)**: **6-8-2-4**. It doesn't have anything to do with what your social style is or how smart you are. It's how you will and won't naturally take action.

Kolbe adds a new dimension. Based on wisdom going back to Plato and Aristotle, the Kolbe Theory<sup>™</sup> has proven successful with over one million users.

Conables® Tips, individualized for you, will not only help you explain your way of taking action, they will help you control the outcomes. For example:

#### What's so different about the Kolbe Index?

Being a 6-8-2-4 in Kolbe has nothing to do with your personality, social style, or if you are a math whiz. Kolbe Index results deal with a different part of the brain/mind that drives your actions.

#### Three Parts of the Mind

Cognitive	Conative	Affective
Thinking	Doing	Feeling
IQ	Drive	Desires
Skills	Instinct	Motivation
Reason	Necessity	Attitudes
Knowledge	Mental Energy	Preferences
Experience	Innate Force	Emotions
Education	Talents	Values

#### Conative?

Action derived from instinct; purposeful mode of striving, volition. It's a conscious effort to carry out self-determined acts.

If **conative** is a new word for you, join the crowd. It's the long-lost term for one of the most important things you need to know about yourself.

## TIME AND ENERGY

#### Everyone runs out of time and energy.

You can't get time back - once it's used, it's gone - but energy can be renewed.

#### YOUR PYRAMID OF MENTAL ENERGY

Your 100 "ergs" of mental energy are equal to the energy available to every other human being. This gives you the same potential power as any CEO or rock star.

Each of your 100 ergs has the same intensity - whether it is in the Initiating, ReActing, or CounterActing zone.

You spend a lot of your time and energy organizing the appropriate sequences for your efforts. You integrate the past, present, and future with a strong underpinning of information regarding what has previously worked well. Your well-coordinated plan addresses the need for prioritization and fine tuning. Your other conative strengths will make these efforts sustainable.

Don't let anyone stereotype you as contributing or "being" just one of the Action Modes. Your contribution begins with systematizing and continues until you stabilize the solution.

Self-manage your use of these limited, but renewable, resources. Use them purposefully and they will bring joy to your life.

Experience it online at https://www.warewithal.com/kolbereports/ with audio.

#### TRUSTING YOUR SENSE OF TIME

It's tough to allocate your time, especially when no one but Kolbe has explained the role of your conative assets.

You use time according to <u>your</u> MO. So forget time management advice that doesn't take it into consideration. Everyone has an equal amount of conative energy, used in differing amounts and orders. You use it in your particular order and percentages per mode.

When free to use your strengths:

- 1. You'll start the problem solving process by creating a plan of attack.
- 2. Next you review data.
- 3. Then, you check the strength and durability of available materials.
- 4. Finally, Jesús, you advocate for what needs to stay the same.

If you work against your grain, you'll never have "enough" time. You will squander it by taking non-productive paths.

### GET MORE DONE IN LESS TIME.

We can't give you more time, but we have proven leveraging your conative strengths can more than double your productivity.

Here are some ways you can get the multiplier effect from your MO of 6-8-2-4.

### Get Conative, Jesús!

Arrange your schedule, coordinate with others, and look at the worst-case scenario.

Conables® Tips		
Because most of the world hasn't recognized conation, you may actually have been taught ways of taking action that are absolutely wrong for you.		
The truth is you need to guard the status quo while striving for positive change.		
A good way to start your day is to check and adjust priorities.		
Don't just take our word for it; try it! You may surprise yourself with how much you can get done, and by how natural it feels.		
Conables® Tips		

You're likely to procrastinate if you don't have all the pieces to the puzzle.

When you need to be persuasive in an unfamiliar situation, find ways to narrow the possibilities.

You may be acting against your grain without even knowing it. When we work against our grain, we are not only unhappy but also unproductive, wasting our time on things that require too much energy. Instead of robbing yourself of your valuable time and energy, modify the things you need to do so that you can accomplish them in your own way.

# **COMMUNICATION & RELATIONSHIPS**

#### Communication is at the Heart of a Relationship

Communication involves Action, ReAction, CounterAction and InterAction. Of course, emotions cause the desire to communicate while thoughts provide the content. However it's your conative instincts that drive how it plays out.

If you aren't communicating through your conative strengths, you are likely to come across as acting out of character or not being authentic.

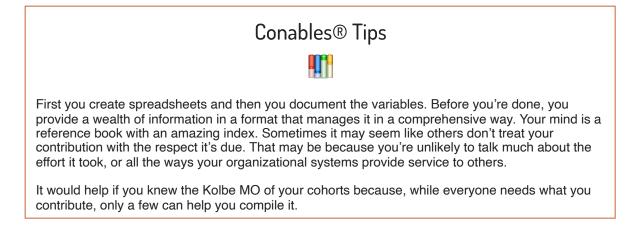

We're taught that there is a "right way" to do things. Our essays have the same structure and our resumes look like we've all had the same experiences.

How can you be true to who you are, and win approval too? We give you individualized Conables Tips for communicating in your own way without turning other people off.

#### Jesús, Communicate Your Way

#### Your instincts won't change with age. Be obstinate with people who expect you to conform to age stereotypes – or any other kind of stereotype.

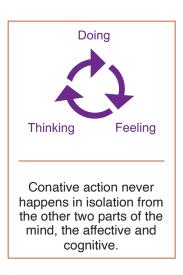

- Get enough information to know what you're talking about without overdoing it.
- Don't hesitate to put up the "Do Not Disturb" sign! Others can throw your day off kilter by disrupting your schedule.

#### WIN-WIN RELATIONSHIPS

There is no perfect combination of Kolbe results for relationships. The ideal spouse, child, sibling, parent, grandparent, colleague or friend will respect your conative truth and allow you the freedom to be yourself.

"Trying to avoid conflict between people with strong conative differences is impossible. No use pretending – it will come out sooner or later. Discussing the differences doesn't resolve them. It involves them. It turns a clash of wills into a meeting of the minds. You are impelled to act according to your instincts, but you can't compel others to respond the same way." *Conative Connection* by Kathy Kolbe

People trust what they sense comes from your conative truths.

You can improve relationships by understanding similarities and differences in your conative MOs.

In situations with someone who is pretty much your conative clone, you might be able to finish each other's sentences, but it could also lead to: inertia in what you do together or competition for who could do things better or more than the other.

Conables® Tips
When working with someone whose MO is similar to your own:
<ul> <li>Avoid getting stuck in your shared methods by bringing in others with diverse approaches.</li> </ul>
<ul> <li>Don't evaluate others by what works best for both of you. For instance, when parents think kids should do things the same way they do them, it often leads to false expectations.</li> </ul>
In situations with a person who has very different conative strengths than you do, you can benefit from the resulting Synergy, or the differences can cause conflict and stress.

## CAREER CONSIDERATIONS

#### Look for Opportunities to Contribute Your Conative Strengths

Jesús, you do your best work when you strive according to your MO. You're most likely to succeed in jobs that use your conative strengths according to each of the Action Modes.

Sequence, classify, coordinate, integrate, codify

Renovate, repair, reproduce, upgrade, simulate

## Finding Careers that Give You the Freedom to Be Yourself

You have many strengths that could contribute to an organization.

In job interviews, people often say things they think employers want to hear. Yet if they get a job based upon false promises, they usually become frustrated and regret having to live up to them.

Finding a job that lets you use your natural strengths is a formula for success.

It pays to be truthful in promoting your MO

Conables® Tips

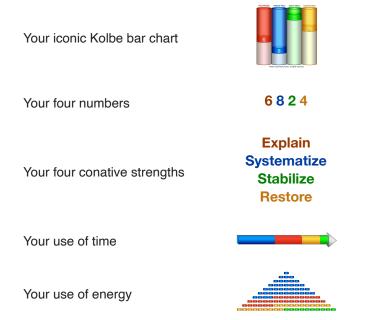

- Evaluate career opportunities not only for the ways you will be able to Initiate Action, but also ways to use your energy to CounterAct. Steer away from careers where your CounterActing abilities will be perceived negatively.
- When considering a specific career, see if you can find out the MOs of those who are successful in that role.
